

FINANCIAL SECURITY

Creating a stronger financial future for every generation

Many ALICE (Asset Limited, Income Constrained, Employed) households are hardworking individuals and families that earn above the Federal Poverty Level but still struggle to afford life's essentials. In Wood County, 35% of households are in this gap, and in Adams County, it's 44%. Seniors are the fastest-growing ALICE population, with 49% of seniors in Wood County and 51% of seniors in Adams County living below the ALICE threshold. These are our neighbors, friends, and family. It's time to raise awareness and take action!

HEALTHY COMMUNITY

Improving health and well-being
for all

In south Wood and Adams Counties, many of our friends and family are working hard but still struggle to make ends meet. ALICE (Asset Limited, Income Constrained, Employed) households—35% of Wood County and 44% of Adams County—earn too much to qualify for assistance like FoodShare yet can't consistently feed their children. Seniors also face barriers to accessing the support and care they need to live independently. United Way is changing that. Together, we're helping families thrive and ensuring everyone in our community can have a healthy and independent life.

YOUTH OPPORTUNITY

Helping young people realize their full potential

Many ALICE (Asset Limited, Income Constrained, Employed) families work hard and have irregular hours but can't afford the childcare and youth programs their kids need to thrive. With limited access to care and few affordable options, children miss out on valuable opportunities to learn and grow.

Together, we can change that by supporting the youth, expanding access to care, and helping every child in our community reach their full potential.

HOW UNITED WAY HELPS
