729

volunteers utilized the Volunteer Center to make a difference in the community in 2020.

\$127,750 INVESTED
IN PARTNER PROGRAMS

SUCCESS STORY:

WE HAVE A NEW CARE RECIPIENT that came to us in 2019, disabled veteran “John”. When John first contacted us, he was in need of transportation to the Food Pantry. Through our sign up process, we found John has a disabled wife, a disabled adult son and another son who is a minor, all living in the same home. John and his family live approximately 20 miles outside our town and nobody in the home is able to drive. It sounds crazy, but it's our reality in Adams County. We got John to the Food Pantry so he could get much needed supplies for his family. In the weeks since, we have added John to our Food Pantry delivery route; we also take him to the grocery store and we take him to pay his rent monthly. On New Year's Eve we took John's wife to the Social Security office for an appointment which was critical to continue her benefits. John has repeatedly said, “I can't thank you enough for all that you do for me and my family.” And that is music to our ears!!
