UNITED *Forever*

UNITED WAY
South Wood &
Adams Counties

ENDOWMENT FUND

Why Now?

The future of our community depends on how we as a community of citizens take action. Since 1942, United Way of South Wood & Adams Counties has done just that. UWSWAC mobilizes the caring power of communities to change lives, set significant and measurable goals, and we hold ourselves accountable.

No organization is better positioned than United Way to address the most pressing issues facing our community. Our foundation is strong, but we'll need bold, new thinking and sustained support to get us where we need to be in 5 or 10 years and beyond - a vibrant future for our community - one in which our children are healthy from birth, graduate from high school ready for success, and go on to find employment that leads to a lifetime of financial stability and family success.

Our goal is to have a greater amount of the annual campaign fund be used to **impact the community each year.**

United Way of South Wood & Adams Counties is **raising funds for our endowment**

to ensure a more predictable, sustainable, and stable future of our mission.

There are many ways to support the United Way of South Wood & Adams Counties' endowment, UNITED FOREVER. Whether you wish to make monetary gifts, qualified IRA distributions, gifts of stock or property, or you would like to provide for United Way in your will, there are many options available to you.

It's amazing how much good even a modest gift can do over time. A multi-year pledge (whether of cash or real estate) over a 2-5 year period results in a much larger gift than possible from a single payment.

United Way of South Wood & Adams Counties recommends that you talk to your attorney, financial planner, or certified public accountant to determine the best philanthropic strategy for you, your family, and your estate.

The purpose of this fund is to get as many of our annual campaign dollars as possible back to the community, supporting partner programs, coalitions, and initiatives.

Your contributions to UNITED FOREVER are invested, the principle protected, and the earnings are collected quarterly and used to help offset the fundraising and management costs of United Way of South Wood & Adams Counties.
